

OTPme - Feature #2

add auto-disable option for users

11 January 2015 18:27 - The 2nd

Status:	In Bearbeitung	Start date:	11 January 2015
Priority:	Normal	Due date:	
Assignee:	The 2nd	% Done:	80%
Category:		Estimated time:	0:00 hour
Target version:	OTPme 0.3		
Description add an option to automatically disable user (also for groups and tokens? and for user/group relation?) - after a given time - after x logins (max_logins) maybe we should also add enabled/disabled times per user, token group etc.?			

History

#1 - 11 January 2015 18:29 - The 2nd

- Target version set to OTPme 0.2

#2 - 11 January 2015 18:32 - The 2nd

- Assignee set to The 2nd

#3 - 14 January 2015 18:26 - The 2nd

disabling user, token etc. should also be possible after being unused for a give time, just like with sessions.

#4 - 09 April 2016 17:32 - The 2nd

- Status changed from Neu to In Bearbeitung

- Target version changed from OTPme 0.2 to OTPme 0.3

- % Done changed from 0 to 80

This feature is implemented as a policy now. This allows us to assign the auto disable feature to users, tokens, hosts etc.

#5 - 26 April 2016 21:02 - The 2nd

- added -u switch to allow disabling a user/token when it is is not used for a given time
