

OTPme - Feature #5

child sessions should not inherit timeout values

11 January 2015 22:42 - The 2nd

Status:	Erledigt	Start date:	01 February 2015
Priority:	Normal	Due date:	
Assignee:	The 2nd	% Done:	100%
Category:		Estimated time:	0:00 hour
Target version:	OTPme 0.1		
Description using separate timeout values for child sessions is a good idea. currently child sessions inherit timeout values from parent sessions. this should be changed with the next version. but maybe we should add an command line option to change timeout values recursive for all child sessions to make administration easier...			
Subtasks: Fehler # 35: session timeout pass on is not done recursive			
			Erledigt

History

#1 - 14 January 2015 18:16 - The 2nd

maybe we should also add an per access group option to "push" timeout values to child sessions?

#2 - 24 January 2015 19:02 - The 2nd

- Status changed from Neu to Erledigt
