OTPme - Feature #59

Feature # 45 (In Bearbeitung): add backend encryption for all sensitive data

Add header to encrypted attributes

19 October 2015 20:28 - The 2nd

Status:	In Bearbeitung		Start date:	19 October 2015
Priority:	Normal		Due date:	
Assignee:	The 2nd		% Done:	80%
Category:			Estimated time:	0:00 hour
Target version:	OTPme 0.3			
Description				
To be able to change encryption types in the future we should add some header with the used encryption type/mode to each encrypted value.				

History

#1 - 19 November 2015 22:58 - The 2nd

- % Done changed from 0 to 80

- Encryption method now adds a simple "header" to each encrypted field (e.g. SECRET="AES_CFB{63353236396562336562363438326332}")
- Decryption method uses this header to choose the right decryption type

#2 - 07 August 2018 14:07 - The 2nd

- Status changed from Neu to In Bearbeitung
