OTPme - Feature #62

Feature # 56 (In Bearbeitung): Implement OTPme scripts

Implement user authorization script

23 November 2015 22:41 - The 2nd

Status:	In Bearbeitung	**Start date:**	23 November 2015
Priority:	Normal	**Due date:**	
Assignee:	The 2nd	**% Done:**	50%
Category:		**Estimated time:**	0:00 hour
Target version:	OTPme 0.3		

Description

- The script will be called by the OTPme daemons after successful authentication of the user
- We should pass some variables (e.g. username, password) to it
- If the exit code of the script is not 0 authentication should fail

History

#1 - 30 December 2015 02:46 - The 2nd

- Status changed from Neu to In Bearbeitung
