OTPme - Feature #69

Add support for user/group resolving via libnss

30 December 2015 03:02 - The 2nd

Status:	In Bearbeitung		**Start date:**	30 December 2015
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	70%
Category:			**Estimated time:**	0:00 hour
Target version:	OTPme 0.3			

Description

- To make OTPme users/groups available as linux system users we should support libnss
- Current implementation uses libnss-cache (https://github.com/google/nsscache) which is easy to use from within python
