

OTPme - Feature #73

Extend the current integrated CA to a full blown CA

07 May 2016 20:10 - The 2nd

Status:	Neu	Start date:	07 May 2016
Priority:	Normal	Due date:	
Assignee:	The 2nd	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	OTPme 0.3		
Description			
<ul style="list-style-type: none">• we should support initializing the realm with an external certificate<ul style="list-style-type: none">◦ support for generating a CSR should be implemented within the OTPme commands• we should add some kind of templates (e.g. ClientCert, ServerCert etc.) to make certificate creation easier• CSR handling needs to be implemented• add certificate deployment and renew within the realm as optional feature
