this is implemented for "otpme-session del" now. this command also supports more than one session_id to delete. other commands will follow later....

#2 - 28 January 2015 19:01 - The 2nd

- % Done changed from 0 to 20

#3 - 08 August 2015 01:53 - The 2nd

- Status changed from Neu to In Bearbeitung
- Target version changed from OTPme 0.2 to OTPme 0.3
- % Done changed from 20 to 90

- global option -f added
- needs testing
